PROFESSIONAL SUMMARY

Computer Science Engineering student with strong skills in web development using HTML, CSS, JavaScript, React, Tailwind CSS, MongoDB and Node.js. Experienced in building scalable, responsive applications with clean architecture and strong user experience. Familiar with AI-driven automation tools such as n8n. improving Data Structures and Algorithms in Java with a focus on efficient and well-structured code. Seeking opportunities in product-based engineering teams.

EDUCATION

Savitribai Phule Pune University (SPPU)

Bachelor of Engineering in Computer Engineering

Pune, India

2026 - Present

TECHNICAL SKILLS

Programming Languages: Java, JavaScript

Frontend Technologies: HTML5, CSS3, React.js, Tailwind CSS

Backend Technologies: Node.js, Express

Tools and Frameworks: Git, GitHub, MongoDB, n8n AI Automation

Core Skills: Data Structures and Algorithms (Learning Phase), Responsive Design, Clean Architecture

INTERNSHIPS

Web Development Intern

One Month

DeIXN Technology Pvt. Ltd.

- Developed e-commerce product and cart pages using React and Tailwind CSS
- Implemented responsive UI and reusable components
- Worked on real-world project workflows and frontend optimization

Tantrata Solutions Pvt. Ltd.

- Work On Real World Project in CRM Project for user-Management module
- Applied AI prompting techniques to improve productivity and debugging efficiency
- Developed backend APIs using Node.js and Express.js
- Also Work on personal Project Called Ai-Powered-Hostel-Management system

PROJECTS

Portfolio

React.js, Email.js, Tailwind CSS

- Built scalable web applications using React.js and Node.js
- Designed responsive Website with focus on performance and Working Features

AI-Powered-Hotel-Management-System

- Build MERN stack Website , based on real world Problem make Easier
- I Used MongoDB, Express.js, Node.js, React.js

AI-Automation

- **Auto Customer & Lead Response System**
Instant automated replies on Email, to improve engagement and reduce manual workload.
- **AI Content Generator with Auto Publishing**
Generates captions + visuals using AI and automatically sends content to Telegram for posting on Instagram & LinkedIn.
- **API-Based Attendance Management Automation**
Manually entered roll numbers are automatically stored in Excel/Sheets, reducing repetitive administrative work.
- **AI-Powered WhatsApp Expense Tracker**
Users send expenses via WhatsApp; AI categorizes, stores, and generates automated weekly/monthly summary.

CERTIFICATIONS AND /Interests

Smart India Hackathon – Participant, Introduction to Generative AI Studio, Prompt Engineering with GitHub Copilot

Interests: Full Stack Development, AI Automation , Solving Real-World Problems.
